

## EASILY TRACK AND MANAGE WORKING HOURS OF REMOTE FIELD EMPLOYEES

FieldDocs Time Tracking ensures accurate employee and sub-contractor timecards and daily tickets. With a real-time connection to the Titan GPS cloud infrastructure and offline support for the app, users can effectively track the working hours of onsite crews to minimize daily paperwork and eliminate potential overpays

Location data can be integrated to ensure that employees are only clocking in and out from a specified project location, reducing errors and hour padding.

### Key Features

- Added security and accuracy with picture I.D.
- Integrate with payroll and HR software
- Mobile timecard app available for Android and iOS

### Primary Benefits

- Track, manage, and predict overtime hours
- Reduce jobsite paperwork and administrative tasks
- Keep better, more accurate records
