KEEP YOUR FLEET IN SHAPE WITH DIGITAL INSPECTION AND CHECKLISTS

Save time and cut down on paperwork with digital vehicle and equipment inspections. The Titan FieldDocs app allows your drivers and operators to quickly select any asset in your fleet, and easily highlight vehicle issues, add comments, and document defects with pictures right from their mobile device.

Configurable vehicle and equipment inspection forms help fleets ensure they keep track of asset condition, while making it easier to schedule maintenance and repairs, get assets back to work quicker, and ensure fleet vehicles are safe and ready to go.

Key Features

- Unlimited number of assets
- Custom forms for any vehicle type
- Add photos/comments of damage or defects
- Flag issues as major or minor
- Signature pages allows sign off on condition after every inspection

Primary Benefits

- Easily schedule repairs and maintenance
- Ensure fleet assets are safe and ready
- Get assets back to work faster
- Eliminate paperwork that is easily lost
- Give maintenance personnel a detailed update on every asset with just a few clicks
