TT1SPSOLARv2

SOLAR POWERED

► MAPPING DASHBOARD

Titan GPS' NEW SOLAR-POWERED GPS tracking solution is the industry's most advanced self-powered cellular tracking device for trailer and mobile assets.

This device is perfect for long-term deployments because it provides frequent reporting metrics to monitor the health and location of mobile assets.

The TT1SPSOLARv2 is IP67 certified with a fully-sealed protective case and can be deployed in the harshest conditions. Simple installation and rugged design mean this device can operate in -40° to +70° C temperatures.

MOBILE ASSET LOCATION AND MONITORING FEATURES

This advanced GPS device includes a range of features:

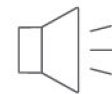

- Tracking the location and routes of trailers and other mobile assets
- Detecting unauthorized movement
- Alerting you to boundary entry and exit

► HIGHLIGHT FEATURES
